

FrameRetreiver

```
classDiagram
    class FrameRetreiver
    class ConfigDialog
    class Faces
    class Points2
    FrameRetreiver <|-- ConfigDialog
    FrameRetreiver <|-- Faces
    FrameRetreiver <|-- Points2
```

The diagram illustrates a class hierarchy. At the top is the 'FrameRetreiver' class. Below it are three subclasses: 'ConfigDialog', 'Faces', and 'Points2'. A horizontal line connects the three subclasses, and a vertical arrow points from the center of this line up to the 'FrameRetreiver' class, indicating inheritance.
